1865.

NEW SOUTH WALES.

AUSTRALIAN MUSEUM.
(REPORT FROM TRUSTEES.)

Presented to both Houses of Parliament, by Command.

REPORT OF THE TRUSTEES OF THE AUSTRALIAN MUSEUM, FOR THE YEAR ENDING 31 DECEMBER, 1864.

To His EXCELLENCY THE GOVERNOR-IN-CHIEF.
&c., &c., &c.

1. The Trustees of the Australian Museum have the honor to submit to your Excellency this their Eleventh Annual Report.

2. The Museum has been open to the public daily (Sundays excepted) during the past year, and has been visited by 61,391 persons.

3. The system of exchanging specimens of natural history with the principal Foreign Museums is still maintained by the Trustees, who have received several valuable collections during the past year, a list of which is appended. (Appendix No. 2.)

4. Numerous donations have been received during the year, a list of which is appended. (Appendix No. 3.)

5. In Appendix No. 4, will be found a list of the various objects sent in exchange, together with the names of the persons or institutions to which they have been transmitted.

6. Several valuable works, purchased out of the Endowment Fund, have been added to the Museum Library, a list of which is appended. (Appendix No. 5.)

7. Two experienced Taxidermists have been occupied during the year in preparing and mounting the following specimens:—

34 mammals,
226 birds,
62 reptiles and fishes, and
12 skeletons of mammals and birds,

and in cleaning and preserving from decay the collections already displayed for public inspection.

8. A catalogue of the specimens in the Museum has been commenced, and the first part, comprising the mammals, has been published; this catalogue is sold at 6d. a copy, which price barely suffices to cover the expenses of printing. The Trustees propose to continue this catalogue, as soon as the funds at their disposal shall enable them to do so.

9. The Trustees having been informed by the Honorable the Colonial Secretary, in a letter dated April 28, 1864, "that the office of curator should be left in the hands " of the Trustees," passed the following resolution at their next monthly meeting, which took place on the 5th of May, 1864, viz.:—" That the present Acting Curator of the " Australian Museum be appointed Curator, with a salary of £300 per annum, and that " application be made to the Government to place a sum, equal to the unappropriated " portion of the vote of £700, upon the yearly Estimates, as an additional endowment,
in order to recover the arrears of work caused by the long vacancy in the Curatorship.” This being notified to the Government, a reply was received from the Honorable the Colonial Secretary, 30th June, 1864, stating “that His Excellency the Governor, with the advice of the Executive Council, had been pleased to approve of the appointment, by the Trustees of the Australian Museum, of Mr. Gerard Krefft, to be Curator of that institution.”

10. An Assistant Curator, of considerable practical experience, has been appointed, who takes an active part in the arrangement of the collection, and occasionally travels in search of objects of natural history; a very large and highly valuable collection, comprising many new genera and species, has thus been brought together, a list of which is appended. *(Appendix No. 6.)*

11. All the available space in the Museum is now filled up, and many valuable specimens, which the Trustees have lately received, are of necessity stowed away, and cannot be exhibited.

12. Appendix No. 1 contains an abstract of the receipts and payments of the Trustees on behalf of the Museum, for the year ending 31st December, 1864.

13. Appendix No. 2 contains a list of the specimens received in exchange from other Museums.

14. Appendix No. 3 contains a list of the various donations during the year, with the names of the donors.

15. Appendix No. 4 contains a list of the specimens sent in exchange to various persons and institutions.

16. Appendix No. 5 contains a list of the books purchased for the Museum Library.

17. Appendix No. 6 contains a list of the specimens collected by Mr. George Masters, the Assistant Curator, from June, 1864, to December, 1864.

18. The Trustees have the honor to submit their Report for the year 1864; and in testimony thereof, have caused their corporate Seal to be hereunto affixed, this 2nd day of March, 1865.

By order of the Trustees,

GERARD KREFFT,
Curator and Secretary.

---

From Mr. W. Cooper, of Hoboken, N. J., U. S.

190 species, about 1,000 specimens, of the land and fresh water shells of the United States of America.

From Mr. Ackroyd, of Brooklyn, N. Y.

100 species of American Lepidoptera.

APPENDIX
DONATIONS TO THE AUSTRALIAN MUSEUM, DURING THE YEAR 1864.

MAMMALS.

Two Skulls of North Australian Aborigines.

Two young of (Mareepus majus).

An Echidna (Echidna hystrix).

A Musk Deer (Tragulus javanicus).

Four specimens of the Tasmanian Wallaby (Damasaurus bilberryi).

Head and Tail of the Renn Antelope (Streptoceros booth).  

Two Bats (Scotopterus gouldii).

A Dingoe (Canis dingo).

Two Bats (Scotopterus).

A Daisyrous (Dacryanus victoriensis).

A Perameles (Perameles nasuta).

Skull of a New Zealander.

A Platypus (Ornithorhynchus anatinus).

A Pandourus.

A Harpodon.

A Phascolage, and two species of Antechinna.

A Musk Deer (Tragulus javanicus).

A Red Kangaroo (Diprotodon rufus).

A Daisyrous (Dacryanus goffingii) and a Beaver Rat (Hydromyus elaphogaster).

A South African Furry (Eupus eubalus).

A Flying Squirrel (Petaurista eubalina).

The lower jaw of a Whale-killer (Ore caucapus).

A Flying Squirrel (Petaurista ocellata).

A Dasyurus (Dasyurus novemcinctus).

Skull of a Martin Cat (Martes foina).

Section of a tooth of a species of Mustelidae.

An Echidna (Echidna hystrix).

A Platypus (Ornithorhynchus anatinus).

A Mungo (Mungo mungo).

A Bat (Scotopterus murinus).

A Flying Squirrel (Petaurista ocellata).

A Black Wallaby (Halmaturus melanops).

A Spiny Echidna (Echidna hystrix).

A Monkey (Procolobus diomces).  

Six pairs of horns of African Antelopes.

A Phascolag (Phascolag pemicatta).

A Bat (Vesperio microura).

A young ring-tailed Opossum (Phalangista cokel).

A Flying Fox (Pteropus poliocephalus).

Two Bats from Ash Island (Scotopterus gouldii).

A Vulpine Opossum (Phalangista vulpine).

Three Flying Foxes (Pteropus poliocephalus).

AVES.

A gigantic Crane (Megalosaurus australis).

A Sparrow Hawk (Accipiter auratus).

An Owl (Athene australis).

A Gall (Procopia gigantea).

A Cannet (Sula australis).

A Macroc Geese (Anseranus melanoodes).

A Sparrow Hawk (Accipiter auratus).

A Canary and an African Finch.

A Owl (Athene australis).

A Cockatoo (Cacatua cinnerea).

A Coach-whip Bird (Phalangista cokel).

A Mask-dunn (Bitturra dubia).

A Quail (Hippomisus melanoochus).

A Hornbill (Ricours).

A Cormorant (Phalacrocorax hypogaeus).

Nest and Eggs of a Palmata (Pardalotes australis).

A Kagu (Rhinautes fuscatus).

An African Sun Bird.

A Gall (Procopia).

A Gang Gang Cockatoo (Cacatua lophotaenia).

A Bille Bird (Ptilopsis paradoxe).

A Kingfisher (Halcyon australis).

A Black-shanked Kite (Elanus axillaris).

Eggs of Common Pheasant, Silver Pheasant, and Figgman.

A Diver (Podiceps australis).

An Owl (Athene australis).

A Satin Bower-bird (Ptilonorhynchus violaceus).

An Albertine (Dendroica albertina).

A collection of Flannel from North Australia.

A Rote Cockatoo (Cacatua ocellata).

A Blood-bird (Myzornis somniosimandala).

Mint and Eggs of a Water Wag-tail.

A Curlew.

A Podargus (Podargus hemerolius).

A New Zealand Parrot (Platycorynus)

A crested Grebe (Podiceps australis).

A Stone Flour (Fluvicola plumulosa).

A Moomph (Characinae breviseta).

A Black-shanked Kite (Elanus axillaris).

An African Finch (Leontophasia).

A Lapota (Leoponax).

Three Leadbeater's Cockatoos (Cacatua leedleather).

A Spotted Pigeon (Ptilorhynchus lividus).

An Anser (Anser monticola).

A Figgman (Gargarulgus).

A Figgman and a Parrot (Psittacus).

From the Botanic Gardens.

Mr. W. J. Stephens, M.A.

Mr. Robert Forbes.

Mr. F. A. Blackman.

The Rev. Thomas O'Reilly.

Mr. George Hill.
A Satin Bowerbird (Ptilonorhynchus violaceus)
A Pheasant Cuckoo (Centropus phasianus)
A White Hawk (Asio novaehollandiae)
A White Hawk (Asio novaehollandiae)
A nest of a species of Honeycreeper
Three specimens of the little Magpie (Grallina australis)
Egg of a Moorhen (Charadrius communis)

REPTILIA.

A Lizard (Phrynosoma stenops)
A Snake (Elaphe guttata)
A Death Adder (Acanthophis antarcticus)
A Sea Snake (Pseudechis australis)
A Sea Snake (Pseudechis australis)
A young Brown-headed Snake (Hypolechus curtus)
A Blind Snake (Typhlops pygmaeus)
A Lace Lizard (Hydrosaurus varius)
A Death Adder (Acanthophis antarcticus)
A Frog (Platypus nigromaculatus)
A Collection of Reptiles
A Sea Snake (Pelamis indices)
A Death Adder (Acanthophis antarcticus)

Two Snakes Typhlops preissi (1), Hypolechus signatus (2)
Two Lizards (Hemidactylus unicolor)
A young Diamond Snake (Morelia spilota)
A collection of Reptiles from Rockhampton
The imperfect skeleton of a Crocodile (Crocodylus palustris)

Two Lizards (Hemidactylus unicolor)
A young Diamond Snake (Morelia spilota)
A collection of Reptiles from Warro
Two Sea Snakes (Platysaurus rhinehardtii)
Two Snakes (Hypolechus signatus)
A Sea Snake (Pelamis indices)
A Pygopus (Pygopus leidigii)
A Diamond Snake (Morelia spilota)
A Blind Snake (Typhlops preissi)
A Diamond Snake (Morelia spilota)

Two new species of Frogs from the Clarence River (Myophryne fasciatus, and Oxydora brucei)
A collection of Reptiles from Victoria, New South Wales, South Australia, and Western Australia
A Diamond Snake (Morelia spilota)
A Sea Snake (Hypolechus signatus)
Two Blind Snakes (Typhlops preissi)
A Collection of Lizards and Frogs from the Murray and Murrumbidgee
A collection of Frogs, Lizards, and Snakes
A Sleeping Lizard (Cyclopus gigas)
A Black Snake (Pseudechis porphyriacus), a Red-capped Snake (Brachyplana irregularis), and two Lizards (Hemidactylus unicolor)
A Sleeping Lizard (Cyclopus gigas)
A Diamond Snake (Morelia spilota)
A Sleeping Lizard (Cyclopus gigas)
A Pygopus (Pygopus leidigii)
An American Tortoise (Euthorpi)
A Black Snake (Pseudechis porphyriacus)

Two Specimens of the Pygopus (Pygopus leidigii)
A Cyclodus (Cyclodus gigas)
A Lizard (Hydrosaurus varius) and a Snake Hypolechus signatus
Three Lizards (Hemidactylus unicolor)
A Cyclodus (Cyclodus gigas)
A Lace Lizard (Hydrosaurus varius)
A Sleeping Lizard (Cyclopus gigas)
A Night Lizard (Phrynosoma platyrhinos)
A Death Adder (Acanthophis antarcticus)
A Brown Snake (Pseudechis australis)
A Night Lizard (Phrynosoma platyrhinos)
A Night Lizard (Phrynosoma platyrhinos)
Five Lizard's Eggs
A Snake (Stenolepis australis)
A Death Adder (Acanthophis antarcticus)
Two Carpet Snakes (Morelia erubescens)
A Diamond Snake (Morelia spilota)
A Collection of Reptiles, from Warro, Port Curtis
A collection of Reptiles
A Black Snake (Pseudechis porphyriacus)
A Diamond Snake (Morelia spilota)
A Cyclodus (Cyclodus gigas)

FISCE.

Three Specimens of Eleotris australis
A Collection of Port Jackson Fishes
A Silver Eel (Muraena)
A Fish (Hypopomus)
A Fish (Encheporhychus)
A Collection of Port Jackson Fishes
A Fish (Hypopomus)
Three species of Fresh Water Fishes (Pseudopteron argentatum, quinquecincta, platys nana)
A Torpedo
PISCES—continued.

A Collection of Fishes from the Waikato River
A Collection of Fresh Water Fishes from Rockhampton
A Collection of Fresh Water Fishes from Waroo, Port Curtis
A Port Jackson Shark (Pristis pectinata)
Two Fishes (Scoridae)
A Shark (Squalus acanthias)
Three Sharks (Carcharias)
Three Fishes (Batiscus)
A Fish (Julis)
A Collection of North Australian Fishes
A Fish (Lobatus)
A Saw Fish (Pristis)
A Fish (Deodon)
A Port Jackson Shark (Pristis pectinata)
Four Fresh Water Fishes (Eleotris anguineus)
A Fish (Nauurs)
A Saw Fish (Pristis)
A Fish (Gladiolus)
A Flying Fish (Exocetus)
A collection of Fresh Water Fishes from New Zealand.
A Shark (Hysodon)
An Ed (Murens)
A Fish (Chitala)
A collection of Fishes from Waroo, Port Curtis
A Fish (Deodon heteromictis)
A Flathead (Platycephalus taenianotus)

MOLLUSCA.

A Collection of Shells from the Gulf of Mexico
A Collection of Loud and Fresh Water Shells from Egypt
Six new species of Australian Land Shells
A collection of Shells from New Zealand
A collection of Australian Shells
A collection of Shells from the Fiji Islands
A collection of Port Jackson Shells
Shells from Torres Straits

MOLLUSCA.

A collection of Shells from the Gulf of Mexico
A Collection of Loud and Fresh Water Shells from Egypt
Six new species of Australian Land Shells
A collection of Shells from New Zealand
A collection of Australian Shells
A collection of Shells from the Fiji Islands
A collection of Port Jackson Shells
Shells from Torres Straits

INSECTA.

A Collection of Australian Lepadoptera
A Collection of Australian Coleoptera and Lepadoptera
A Phasmas (Kladastoma burtonii)
A Phasmas
Two large Coleopterous insects (Saracama)
A Phasmas (Plathemis titan)
A Spilix (Spilix buttonii)

CRUSTACEA.

A Crab (Scopicus),
A Crab (Neptusus),
A Crab,

POLYPHY.

A Species of Panastaria

BOTANICAL SPECIMENS.

Seeds and timber from New Zealand
Samples of Fiji Island Cotton

Mr. W. Wolfen
Mr. B. P. Roed

MINEROGICAL SPECIMENS.

Rough Agates
Limestone from the neighbourhood of Wagga Wagga
Banks and Minerals from South America and Egypt
Australian Copper and Silver Ores
A collection of fossil shells of the genus spirifer

Dr. George Bennett, F.Z.S.
Mr. Thomas W. Hammond
Rev. G. E. Turner, B.C.L.
Mr. Saul Samuel, M.L.A.
Mr. Ed. Scholfield

BOOKS.

The Transactions of the Entomological Society of New South Wales
Descriptions of a series of Ondibranchiate Molluscs
Report of the Royal Society of Tasmania
The Annual Report of the Acclimatisation Society
Parts 7, 8, and 9 of Capt. Bledsoe's Ferns of Southern India

The Council of the Entomological Society.
Mr. G. F. Angas, Cor. M.Z.S.
The Acclimatisation Society.
The Hon. the Colonial Secretary.

ETHNOGRAPHICAL SPECIMENS.

Weapons and implements from New Zealand
A Greenstone hatchet, and two ornaments of the same material
 Implements from Byron's Island
A collection of Egyptian antiquities
Female figures made of beeswax, from North Australia
A stone hatchet, from Lane Cove

Mr. W. Wolfen
Mr. Ed. S. Hill
Mr. John Brazer.

**APPENDIX No. 6.**

List of Specimens collected by Mr. George Masters, Assistant Curator, from June, 1864, to December, 1864.

**Mammals.**

- Campephaga karu
- Campephaga humeralis
- Pachycephala gutturalis
- Pachycephala pectoralis
- Pachycephala olivacea
- Colluricincla harmonica
- Colluricincla parvula
- Ptilodactyla bicornis
- Rhipidura albopectoralis
- Rhipidura ruficollis
- Rhipidura maculata
- Seiurus iniquula
- Myiagra plumbea
- Microeca murina
- Monarcha carinata
- Tachybaptus ruficollis
- Tachybaptus melanogaster
- Tachybaptus albifrons
- Clithoninae minima
- Anthus atratus
- Anthus flavipes
- Anthus montanus
- Anthus rubecula
