REPORT OF THE TRUSTEES OF THE AUSTRALIAN MUSEUM, FOR THE YEAR ENDING 31 DECEMBER, 1865.

To His Excellency the Governor-in-Chief.

1. The Trustees of the Australian Museum have the honor to submit to your Excellency this their Twelfth Annual Report.

2. The Museum has been open to the public daily (Sundays excepted) during the past year, and has been visited by 67,271 persons.

3. The system of exchanging specimens of natural history with the principal Foreign Museums is still maintained by the Trustees, who have received several valuable collections during the past year, a list of which is appended. (Appendix No. 2.)

4. Numerous donations have been received during the year, a list of which is appended. (Appendix No. 3.)

5. In Appendix No. 4, will be found a list of the various objects sent in exchange, together with the names of the persons or institutions to which they have been transmitted.

6. Several valuable works, purchased out of the Endowment Fund, have been added to the Museum Library, a list of which is appended. (Appendix No. 5.)

7. Two experienced Taxidermists have been occupied during the year in preparing and mounting the following specimens:—
   27 mammals,
   221 birds,
   20 reptiles and fishes,
   15 skeletons of mammals and birds,—
and in cleaning, and preserving from decay, the collection already displayed for public inspection.

8. The Trustees have to record the resignation of Sprott Boyd, Esq., M.D., the retirement of the Rev. John Woolley, D.C.L., and of Colonel E. W. Ward, R.E., from the Board. The vacancies thus occasioned have been filled, by the election of Professor Smith, M.D., James C. Cox, Esq., M.D., and the Honorable Sir William Macarthur, M.L.C.

9. The Trustees have to report the sale of nearly 2,000 copies of the first part of their Catalogue (comprising the Mammals) during the year, and the necessity of a new and enlarged edition of this publication.

20—A

The
The second part will contain the Birds, the first family of which (Reptores) is completed, and ready for the press. Of this section, the Museum contains now—

- 32 genera,
- 64 species, and
- 200 specimens.

Part III, comprising the Reptiles, is also finished, shewing that this class is represented by—

- 224 genera,
- 426 species, and
- 1,356 specimens.

10. The large number of additional specimens, which have been obtained by the Trustees during the course of the year, has involved a considerable outlay for cabinets, which, though distributed with a view to the utmost economy of room, have now almost completely filled the hall and gallery, and have seriously encroached upon the space required for the unimpeded circulation of visitors. The Trustees, nevertheless, feel it necessary that further accommodation should be provided, for the purpose of preserving and arranging their rapidly increasing stores; and they would, therefore, draw the attention of your Excellency to the fact, that the sum of £1,000 was voted by the Legislature towards the fittings of the new Museum, and desire to suggest that this sum, or a portion of the same, be placed at their disposal, at as early a date as may be convenient. The additional cabinets which the Trustees would thus be able to provide, while constructed with a view to their ultimate exhibition in the new building, might for the present be arranged, without detriment, in parts of the Museum which are not accessible to the general public.

11. By the exertions of Mr. George Masters, the Assistant Curator, a large number of Australian specimens has been obtained, particularly of animals peculiar to South Australia and the West Coast, a list of which is appended. (Appendix No. 6.)

12. A collection illustrating the various deposits encountered in sinking for gold in New South Wales, and the character of the gold thus obtained, accompanied by 197.11 ounces of gold, has been received by the Trustees from the Acting Deputy Master of the Royal Mint, and is now on view in the hall.

13. The Trustees also report that, at the request of Mrs. Wise, they have taken charge of the valuable and highly interesting library of Australian books collected by the late Mr. Justice Wise, and bequeathed by him to the Free Library of Sydney, a catalogue of which is appended. (Appendix No. 7.)

14. Appendix No. 1 contains an abstract of the receipts and payments of the Trustees, on behalf of the Museum, for the year ending 31st December, 1865.

15. Appendix No. 2 contains a list of the specimens received in exchange from other Museums.

16. Appendix No. 3 contains a list of the various donations during the year, with the names of the donors.

17. Appendix No. 4 contains a list of the specimens sent in exchange to various persons and institutions.

18. Appendix No. 5 contains a list of the books purchased for the Museum Library.

19. Appendix No. 6 contains a list of the specimens collected by Mr. George Masters, the Assistant Curator.

20. Appendix No. 7 contains a list of the books and newspapers bequeathed by the late Mr. Justice Wise to the Free Library of Sydney.

21. The Trustees have the honor to submit this their Report for the year 1865; and in testimony thereof, have caused their corporate Seal to be hereunto affixed, this 8th day of May, 1866.

By order of the Trustees,

GERARD KREFFT,
Curator and Secretary.

A Cormorant (Phalacrocorax carbo),

An Ibis (Threskiornis aethiopicus)

A long-tailed Kingfisher (Zungarina sylvia)

A Collection of Birds from Cape York

A Night-heron (Nyctibius arsinalis) and an Ibis (Threskiornis aethiopicus)

Egg of a Megapodus, from Banks’ Island

A collection of Tasmanian birds.

Two cormorants (Phalacrocorax longicollis) and a Pileated (Pileopus)

A Kite (Elanus caeruleus)

A collection of rare birds from Cape York

A Spoon-bill (Platalea javana)

A Kite (Elanus caeruleus)

A Parrakeet (Melopsittacus undulatus)

A Leadbeater’s Cockatoo (Cacatua moluccensis)

Two Partridges, an Apteryx (Apteryx mantelli)

A South Sol Island Pigeon, a Duck (Anas), and a New Zealand Rail

REPTILES.

A collection of Reptiles from Queensland.

Two Lizards (Hemidactylus) and a Snake (Diemenia psammophila).

A Hawk-bill Turtle (Caretta saurina).

A collection of Reptiles from New Caledonia.

Five young Snakes (Typoboa angulata).

A collection of Reptiles from Warro, Port Curtis.

A Lizard (Cyclodis gigas).

A Tree-snake (Dendrophis punctulata).

A brown-headed Snake (Hylopholis curta).

A collection of Reptiles from the Fiji Islands.

A Tree-snake (Dendrophis punctulata).

A Brown Snake (Diemenia superciliosa).

A Diamond Snake (Morelia spilotes) and a Sleeping Lizard (Cyclodis gigas).

A Broad-tailed Lizard (Platyrurus platyrurus).

A Sleeping Lizard (Cyclodis gigas).

A Frog from the Fiji Islands.

A Brown-headed Snake (Hylopholis curta).

A long-necked Tortoise (Calocordyla longicollis).

A bearded Lizard (Dranomastophora barbata).

An armadillo Snake (Morelia spilotes).

A Death Adder (Acanthophis antarcticus).

A Pygopus (Pygopus pinguis).

Two Snakes (Diemenia psammophila) and (Diemenia superciliosa).

A Snake (Diemenia superciliosa).

A Diamond Snake (Morelia spilotes) and a Black Snake (Pseudechis porphyriacus).

A Collection of Reptiles from the Morromblidge.

A Collection of Reptiles from the South Sea Islands.

A Collection of Reptiles from Ash Island.

A Filleted Lizard (Oedipus tessellatus).

A Diamond Snake (Morelia spilotes).

A Lialis (Lialis punctatus) and a Vermicella (Vermicella annulata).

A Death Adder (Acanthophis antarcticus).

A Lizard (Ophiocephalus exuvianus).

A Diamond Snake (Morelia spilotes).

A Collection of Reptiles from Warro, Port Curtis.

A Death Adder (Acanthophis antarcticus).

A Lizard (Ophiocephalus exuvianus).

A Diamond Snake (Morelia spilotes).

A Collection of Japanese Reptiles.

A Whip Snake (Diemenia psammophila).

A Vermicella (Vermicella annulata).

A Collection of Port Jackson Fishes.

An Eel (Muraena).

A Port Jackson Shark (Carcharias philipti).

A Fish (Cheirodactylus).

A Fish of the genus Eel (Myxine).

Three Fresh Water Fishes (Galathea erdaa).

A Fish (Monocentris japonica).

A Port Jackson Shark (Carcharias philipti).

A Collection of Fresh Water Fishes from Warro, Port Curtis.

A Toad Fish (Chetorhynchus).

A Angelfish (Rhineopterum bimaculatum).

A Shark (Heterodontus).

A Sun Fish (Zoas-fab).s)

A Pipe Fish (Sympatetus).

A Toad Fish (Chetorhynchus).

A Fish (Gourami).

A Saw Fish (Pristis).

FISHES.

**APPENDIX No. 6.**

**LIST OF SPECIMENS COLLECTED BY Mr. GEORGE MASTERS, ASSISTANT CURATOR, DURING THE YEAR 1865.**

### At Ipswich and the Pine Mountain, Queensland.

#### MAMMALS.
- Phascolagus penicillata
- Peramaeus nanus
- Phalangista coekii
- Phalangista canina
- Phalangista vulpina
- Petasoura taganaoides
- Rodentia hyraces
- Phascotarctos cinereus
- Hyopsiphrax musius
- Halmaturus talpei
- Halmaturus doralis
- Halmaturus felliventris
- Hydromys lepogaster
- Chiroptera (3 species)

#### BIRDS.
- Halisaturn sphenurus
- Jerarctes berigona
- Milvus affinis
- Lepidogyps suborientalis
- Dacelo leachii
- Haleycen macleayii
- Alyceina azurea
- Pachycephala gutturalis
- Celluricinca parvula
- Falcomellus frontatus
- Monarcha trivirgata
- Porphorus crepitans
- Pilla striptana
- Oreocina rhinolophus

#### FISHES.
- Electra

#### REPTILES.
- Nine species

#### INSECTS.
- Lepidoptera, 27 species
- Coleoptera and other Orders

### At Adelaide, Port Augusta, Port Lincoln, and Flinders Range, South Australia.

#### MAMMALS.
- Dasyurus geoffroyi
- Perameles obscura
- Aprocta pygmaea
- Bettongia campestris
- Petrogale xanthopus
- Halmaturus rufiventris
- Lagorchestes leporoides

#### BIRDS.
- Falco melanogaster
- Falco tinnunculus
- Amides melanochadus
- Acipiter

#### FISHES.
- Sericinus chrysophthalmus
- Orichus vidialis
- Speothoerus australis
- Cervus cornicolor
- Ptilidias chrysoidis
- Ptilidias fusca
- Trepidolinchus corniculatus
- Caracina ganseri
- Aprosmictus acapulatus
- Trachoglossus chloropeltius
- Ptilinopus sauriceps
- Callophaps chrysochora
- Geophaps scripta
- Talgula laevis
- Gallinula tensirostris
- Hemipodias melanchogaster
- Phalacrocorax

#### REPTILES.
- Podiceps gularis
- Stegura graminea
- Phalacrocorax

#### INSECTS.
- Lepidoptera, 27 species

**Note:** All the specimens collected were in a state of preservation for the Museum.

**AUSTRALIAN MUSEUM.**

Sydney, 3rd May, 1866.

**GERARD KREFFT.**

Curator and Secretary.
AUSTRALIAN MUSEUM.

Australian Museum.
Sydney, 2nd May, 1869.
APPENDIX No. 7.

CATALOGUE of BOOKS, NEWSPAPERS, ALMANACS, REGISTRAR GENERAL'S (ENGLISH) REPORTS, MISCELLANEOUS WORKS, &c.
