Grant funds requested from AMRI (funded by the Australian Museum Foundation)

Amount of funds requested (AU\$2,500 max)

Proposed work during the Fellowship and contribution to AMRI objectives

Our work at AMRI is prioritised into areas where we can have the greatest impact - 'Science Clouds'. These priority areas enable our people and people who use our collection to work across fields in a cloud environment – scanning and foresighting, sharing resources, ideas and information, and innovating across fields and disciplines to drive scientific and cultural discoveries and public engagement.

Please refer to the [2017-21 AMRI Science Strategy](#) and explain which one or more of the clouds your research will deliver on and how you will address the priorities listed under each cloud. Maximum word count for each cloud is 100 words.

AMRI Science Clouds

Explain how the priorities will be addressed

1. Contemporary discovery
2. Impacts of change
3. Supporting Australian industry
4. Cultural connections

Objectives, methods and outcomes of proposed research

Maximum 500 words. You may attach as a separate document should your description contain images or figures - please indicate in the box below if extra documents are attached

Budget

An itemised budget for the work proposed including DNA services. (For molecular biology studies, please indicate the number of samples and number of genes).

For DNA costs, please contact Dr David Alquezar - david.alquezar@austmus.gov.au
